

cFOOD

CALCIUM-RICH FERTILIZER

cFOOD is a wettable powder fertilizer designed as a food package to promote beneficial microbial growth in soil and canopy. The C in cFOOD stands for Chitin and Calcium. cFOOD is unique because it is specifically designed to stimulate the growth of beneficial microbes capable of consuming Chitin-based proteins. cFOOD contains a complex of organic acids, surfactants, vitamins, enzymes, and over 30 different minerals.

Elevate Ag is making a positive impact in the world of agriculture. With innovative ideas and cutting-edge technology, we are revolutionizing how food is grown and helping farmers increase their yields and profits. We offer products that ensure a more vibrant, productive, and sustainable future for farmers and their communities.

cFood

CALCIUM-RICH FERTILIZER

cFood is a wettable powder fertilizer with 2.0-0-1.5 analysis and 15% Calcium, designed for balancing Calcium and Magnesium ratios. It promotes microbial growth with its organic acids and vitamins.

Benefits:

- Chitin-based microbial food product is micro-ground
- Extremely small particle size creates a very large surface area which promotes rapid metabolism of Chitin
- Promotes the development of a large and diverse microbial population
- Useful for balancing Ca/Mg ratios in soils and for getting Ca into the plant foliarly
