

Growthful Post-Emerge

YIELD MAXIMIZER

Growthful is an inorganic liquid soil amendment designed to increase yields by helping plants grow more efficiently. This leads to healthier plants (better crop quality) and allows the plant to maximize its production potential (better yields). Growthful helps growers maximize their profitability through higher yields, improved crop health, and lower input costs.

Elevate Ag is making a positive impact in the world of agriculture. With innovative ideas and cutting-edge technology, we are revolutionizing how food is grown and helping farmers increase their yields and profits. We offer products that ensure a more vibrant, productive, and sustainable future for farmers and their communities.

Growthful Post-Emerge

YIELD MAXIMIZER

Growthful Post-Emerge is an inorganic liquid soil amendment that helps plants grow more efficiently, promoting healthier plants and higher yields, ultimately maximizing profitability through improved crop health and reduced input costs.

Benefits:

- Increases plant yields and may reduce other input costs.
- Can be applied as part of a farmer's regular protocols — No additional labor cost.
- Helps reduce plant stress.
- Increase nutrient availability.
- Keeps sprayer tips and screens clean.
- Mixes well with other inputs
