

# Liquid Fulvic Acid

## NATURAL SOIL CONDITIONER

Specifically formulated fulvic acid extraction to be used with liquid fertilizers, made exclusively with Leonardite, found in isolated veins in Northwestern North Dakota. Fulvic acid acts as a chelating agent and a booster, helping make essential minerals and nutrients more absorbable for plants, especially in nutrient-poor soils.

Elevate Ag is making a positive impact in the world of agriculture. With innovative ideas and cutting-edge technology, we are revolutionizing how food is grown and helping farmers increase their yields and profits. We offer products that ensure a more vibrant, productive, and sustainable future for farmers and their communities.

# Fulvic Acid

## NATURAL SOIL CONDITIONER

Specifically formulated fulvic acid extraction to be used with liquid fertilizers. It is made exclusively with Leonardite found in isolated veins in Northwestern North Dakota.

### Benefits:

- Improves soil structure and health
- Supports root growth
- Aids in defense against pathogens and diseases
- Catalyzes enzyme activity
- Improves ability to withstand environmental stressors
