## MICROBIAL GROWTH PROMOTER

mFOOD is a wettable powder fertilizer designed as a food package to promote beneficial microbial growth in soil and canopy. The M in mFOOD stands for microbe. mFOOD is unique in that it is designed to stimulate beneficial microbial growth by providing all the food, nutrients, vitamins, enzymes and elements that are required as building blocks for increased microbial metabolism and reproduction. Use mFOOD in combination with any microbial inoculant product for a multiplier effect of the benefits of the microbes in the material.

Elevate Ag is making a positive impact in the world of agriculture. With innovative ideas and cutting-edge technology, we are revolutionizing how food is grown and helping farmers increase their yields and profits. We offer products that ensure a more vibrant, productive, and sustainable future for farmers and their communities.

# mFood

## MICROBIAL GROWTH PROMOTER

mFood is a wettable powder fertilizer promoting microbial growth. It contains organic and L-amino acids, surfactants, vitamins, enzymes, and over 30 minerals, with a guaranteed analysis of 0.5-0-3.0.

### Benefits:

- Stimulates microbial population growth of a broad range of types of beneficial microbes
- Speeds up nutrient availability for plants
- Makes the fertilizer applied more efficient
- Does not use simple sugars to feed microbes to avoid the growth of undesirable microbes
