

Oceanic Hydrolysate

SLOW-RELEASE SOIL HEALTH BOOSTER

Oceanic Hydrolysate offers a balanced blend of immediate and slow-release nutrition, featuring amino acid nitrogen and marine-based omega lipids that nourish healthy soil biology. Its formula also includes 6-9% lipids from fish oils and fatty acids, which support the growth of beneficial fungi. Cold-processed and never pasteurized, this product ensures the preservation of nutrients, enzymes, proteins, and lipids, providing long-lasting soil health benefits. Oceanic hydrolysate is the ideal "seafood for the soil."

Elevate Ag is making a positive impact in the world of agriculture. With innovative ideas and cutting-edge technology, we are revolutionizing how food is grown and helping farmers increase their yields and profits. We offer products that ensure a more vibrant, productive, and sustainable future for farmers and their communities.

Oceanic Hydrolysate

SLOW-RELEASE SOIL HEALTH BOOSTER

Oceanic Hydrolysate provides a blend of immediate and slow-release nutrition with marine-based omega lipids and amino acids, boosting soil biology and preserving nutrients for lasting soil health.

Benefits:

- Amino acid nitrogen and marine-based omega lipids are preferred by healthy soil biology
- 6-9% lipids from fish oil and fatty acids increase beneficial fungi populations
- Cold-processed and never pasteurized to protect the integrity of nutrients, enzymes, protein and lipids
- Feeds the soil biology – excellent for post-harvest use
