

# SeaPhos

## MARINE-BASED NUTRIENT SOURCE

SeaPhos delivers bioavailable marine phosphorus and nitrogen, derived from marine bone phosphates and amino acids, enhancing nutrient uptake efficiency. Its unique formulation feeds beneficial fungi with 6-9% lipids from fish oils and fatty acids, while the cold-processed production method ensures the integrity of enzymes, proteins, and lipids for optimal soil health. SeaPhos is the ultimate “seafood for the soil,” designed to boost soil fertility and promote thriving ecosystems.

Elevate Ag is making a positive impact in the world of agriculture. With innovative ideas and cutting-edge technology, we are revolutionizing how food is grown and helping farmers increase their yields and profits. We offer products that ensure a more vibrant, productive, and sustainable future for farmers and their communities.

# SeaPhos

## MARINE-BASED NUTRIENT SOURCE

Sea Phos delivers bioavailable phosphorus and nitrogen derived from marine sources. It feeds beneficial fungi with fish oils and fatty acids and boosts soil health with cold-processed nutrients.

### Benefits:

- Amino acid nitrogen and marine-based omega lipids are preferred by healthy soil biology
- 6-9% lipids from fish oil and fatty acids increase beneficial fungi populations
- Cold-processed and never pasteurized to protect the integrity of nutrients, enzymes, protein and lipids
- Feeds the soil biology – excellent for post-harvest use
